

JMobile V2.8

Release Notes

JMobile V2.8 Release Notes

New **features** and **corrections** in JMobile V2.8.

All items are referenced with their Ticket ID number. This is the number used as reference during development; it uniquely identifies the activity.

Build numbers references:

V2.6 SP1	Previous major release version number	2.6.1.67
V2.8	Current major release version number	2.8.0.305
V2.8 HF1	Current hotfix release version number	2.8.0.363
V2.8 HF2	Current hotfix release version number	2.8.0.435
V2.8 SP1	Current service pack release version number	2.8.1.314

All items are classified as

Feature: implementation of a new feature

Bug: solution to problems reported by users. Summary may include the CRM case identification number assigned during technical support.

Build number 2.8.1.314

Changes since build 2.8.0.435

Category	Ticket ID	Summary	Type
Actions and Events	JM-13638	Manage Time Spec setting into DatetimePrefix of dump file name - Case ID: 201802866	Feature
CODESYS 3.0 (iPLC)	JM-13779	[CDS3] Add possibility to command CODESYS V3 to reset an application or shutdown or reboot	Feature
CODESYS 3.0 (iPLC)	JM-14571	Include OPC-UA Server to CODESYS v3.5.10	Feature
CODESYS 3.0 (iPLC)	JM-15004	Distribute CODESYS v3.5.12 in v2.8-SP1 of Exor brand	Feature
Documentation	JM-13456	[S7ET] Logo! dedicated help chapter to be modified for the use of Logo! OBA8 model - Case ID: 201802104	Feature
Documentation	JM-14648	End of JMobile support Windows XP	Feature
Documentation	JM-14679	[DOC] Explain the meaning of the different colors applied to tag's names into Tag Cross Reference window - Case ID: 201808253	Feature
Productivity tools and IDE UI	JM-13856	Allow to attach to grid external margin color	Feature
Protocol	JM-13891	[GENM] Grundfos GENIbus Communication Protocol	Feature
Protocol	JM-14424	[MODR] Possibility to enable and disable Modbus gateway from doCommand - Case ID: 201806122	Feature
Audit trail	JM-14327	Audit Trail does not log failed login attempts	Feature
Protocol	JM-14765	[MODT] Implement Busy exception management in Modbus TCP protocol - Case ID: 201807747	Feature
Security	JM-14681	JM4Web - When configured, the password must be entered also with localhost - Case ID: 201807203	Feature
Widget: Table	JM-14656	Slow loading of table when containing recipe data - Case ID: 201808062	Feature
Actions and Events	JM-14322	Dump Trend includes quality information also if not required when launched from Scheduler - Case ID: 201806019	Bug
Actions and Events	JM-14754	MoveIPCamera action does not convert + char into the corresponding percent encoding format - Case ID: 201900215	Bug
Alarms	JM-13914	Active alarm widget reports triggered alarm but tag value is 0 - Case ID: 201803674	Bug
Alarms	JM-14558	Live Tag Refresh issue on Active Alarms Widget with CDS3 - Case ID: 201807147	Bug
Alarms	JM-14570	Array type tags do not display the live data in alarm description on Active Alarm widget - Case ID: 201807384	Bug
Alarms	JM-14589	"alDateTime" field of alarms manager widget returns wrong value - Case ID: 20180756	Bug
Alarms	JM-14608	alCustomField not returned correctly from JavaScript	Bug

Category	Ticket ID	Summary	Type
CODESYS 3.0 (iPLC)	JM-14379	Cannot re-activate CODESYS license if we try with different Ethernet interfaces on same HMI	Bug
Data entry	JM-14769	Numeric keyboard shows an error when is open and we try to open another keyboard	Bug
Data transfer	JM-14478	Rounding digits shows wrong value in int64 and uint64 data type for data transfer	Bug
Dialogs	JM-14901	Dialog page on JM4Web not shown with customer's project - Case ID: 201901591	Bug
Fonts	JM-14884	When changing language the default font is not set in table widget - Case ID: 201900813	Bug
JavaScript	JM-13824	JavaScript error on JM4Web displayed only in Mozilla Firefox - Case ID: 201803686	Bug
JavaScript	JM-13976	In JM4Web Project JavaScript not starting execution - Case ID: 201804119	Bug
JavaScript	JM-14602	JavaScript setTag function on array tags not working in JM4Web with customer's project - Case ID: 201807572	Bug
JM4web: Core	JM-13671	[JM4web] Group ID does not work properly if the button is linked with same tag with different bit index	Bug
JM4web: Core	JM-13980	JM4web - Getting import error when a flag button with newly added up image	Bug
JM4web: Core	JM-14070	[JM4web] Value is not updated when custom widget inheritance = disabled (Refresh issue)	Bug
JM4web: Core	JM-14155	Access to JM4Web page where is defined Active Alarm widget is frozen - Case ID: 201804876	Bug
JM4web: Core	JM-14199	JM4web: Scale widget not working correctly	Bug
JM4web: Core	JM-14213	Failed tags subscriptions in browser with multi tabs environment	Bug
JM4web: Core	JM-14287	JM4Web: fonts not loaded correctly from fonts.css file - Case ID: 201805497	Bug
JM4web: Core	JM-14391	Font color "none" not works for numeric widgets in web page - Case ID: 201806187	Bug
JM4web: Core	JM-14458	[JM4web] Canvas widget does not work inside a custom widget. JavaScript error appears.	Bug
JM4web: Core	JM-14534	Application conversion from 2.6 to 2.8 returns error in JM4WEB pages - Case ID: 201807203	Bug
JM4web: Core	JM-14752	Visualization problems of Multistate images in JM4WEB pages with customer application - Case ID: 201900207	Bug
JM4web: Core	JM-14967	JM4Web: Error when WebPageRequest is attached to Tag - Case ID: 201902084 (Introduced)	Bug
JM4web: Core	JM-14985	JM4Web: LoadPage action not executed in specific user management with customer project - Case ID: 201902164	Bug
JM4web: Core	JM-15170	[JM4WEB] Web page with scatterdiagram crashes when displayed on browser - Case ID: 201902399	Bug
Licenses	JM-14557	License activation return error message if BIOS ID is empty - Case ID: 201807237	Bug
Multilanguage	JM-14336	Combo box widget with multilanguage disabled generates an issue in page loading - Case ID: 201806096 Case ID: 201804048	Bug
Multilanguage	JM-14631	Content of csv exported file inconsistent with what displayed into Multilanguage editor for custom widgets labels - Case ID: 201807900	Bug
Productivity tools and IDE UI	JM-13459	Download application is not possible, JM Studio shows corrupted path - Case ID: 201801850	Bug
Productivity tools and IDE UI	JM-13768	Attach to dialog not usable in PC with resolution 1024*768 (Introduced)	Bug
Productivity tools and IDE UI	JM-13990	Studio crashes on undo the customized widget with specific project	Bug
Productivity tools and IDE UI	JM-14247	Wrong Data logger link updating in Trend table widget	Bug
Productivity tools and IDE UI	JM-14401	Tags Cross Reference shows system variables as invalid if project has been converted from previous versions - Case ID: 201806290	Bug
Productivity tools and IDE UI	JM-14402	Tags Cross reference show some unused tags but the tags are not available in the project - Case ID: 201806290	Bug
Productivity tools and IDE UI	JM-14412	Improvements to Tag Cross ref for the ref which does not support Array (for ex Formula)	Bug

Category	Ticket ID	Summary	Type
Productivity tools and IDE UI	JM-14431	Adding new row in data source widget, if a col has ML enabled, that col will not have ML enabled	Bug
Productivity tools and IDE UI	JM-14484	Change "Impossible to add PLC trend" information dialog to Modal dialog.	Bug
Productivity tools and IDE UI	JM-14485	JM Studio crash when group a couple of widgets inside a template page	Bug
Productivity tools and IDE UI	JM-14486	Wrong tooltip shown for "Add PLC trend" button.	Bug
Productivity tools and IDE UI	JM-14624	Studio crash opening customer's project - Case ID: 201807480	Bug
Productivity tools and IDE UI	JM-14678	Tags listed twice in Tag Cross Reference window after project conversion - Case ID: 201808244	Bug
Productivity tools and IDE UI	JM-14824	Duplicating a closed page, both pages lost label properties information - Case ID: 201900788	Bug
Productivity tools and IDE UI	JM-14922	True/False options under Users editor gets populated as we check/uncheck the password related options under "Common parameters" dialog	Bug
Productivity tools and IDE UI	JM-9234	Tag deletion leads to impossibility to select any Studio part when properties pane is floating - Case ID: 201504546	Bug
Protocol	JM-14268	[BACN] BACnet does not reconnect after rebooting without network- Case ID: 201805527	Bug
Protocol	JM-14472	[BAC2] Add possibility to enable online simulation on second instance of BACnet_2 protocol - Case ID: 201806710	Bug
Protocol	JM-14516	[MODR] Random crash when connecting to Modbus Gateway - Case ID: 201806937	Bug
Protocol	JM-14519	[OMRE] Read data String has byte/char swapped than Write data String - Case ID: 201807109	Bug
Protocol	JM-14548	[S7ET] Double Data Type imported but not supported - Case ID: 201807291	Bug
Protocol	JM-14595	[BACN] Protocol error message report "Segmentation Not Supported" when application requests are greater than "Maximum length of APDU" - Case ID: 201807339	Bug
Protocol	JM-14652	[CDS3] Wrong data type returned by boolean variables - Case ID: 201807693	Bug
Protocol	JM-14717	[KNX] Unable to directly connect to KNX/IP device - Case ID: 201808153	Bug
Protocol	JM-14719	[CDS3] Linux version: writing to application status values in the range 251 - 255 is not accepted	Bug
Protocol	JM-14721	[KNX] String data type report wrong value - Case ID: 201808176	Bug
Protocol	JM-14749	[KNX] Sporadic runtime crash when executing a project with KNX protocol - Case ID: 201808153	Bug
Protocol	JM-14759	After 2 or 3 downloads a project with [GE90] SNP protocol, hmi Linux goes in crash - Found during Regression Test	Bug
Protocol	JM-14792	[BACN] Runtime crash on UN60 using Protocol version 162 - Case ID: 201900494	Bug
Protocol	JM-14799	[S7ET][MPOB][S7DP] Float Data Type imported but not supported - Case ID: 201900542	Bug
Protocol	JM-14816	[ADDM] Wrong reading / write operations on some memory types - Case ID: 201900747	Bug
Protocol	JM-14877	[CCMP] Runtime crash if CT Modbus CMP ETH is configured in project - Case ID: 201901316	Bug
Protocol	JM-14885	[ADDM] Simulator and runtime crashes without communication with PLC - Case ID: 201901245	Bug
Protocol	JM-14916	[S7ET] [MPOB] [S7DP] String data type management from new TIA project importer - Case ID: 201901418	Bug
Protocol	JM-15013	[KNX] Runtime crash when loading customer project with PLC in communication - Case ID: 201902292	Bug
Protocol Editor	JM-14814	On reopening JM Studio it shows less device in PLC network than saved before - Case ID: 201900760	Bug
Protocol Editor	JM-14914	[S7ET] One-step symbol acquisition from TIA Portal cause Studio crash with customer's project - Case ID: 201901692	Bug

Category	Ticket ID	Summary	Type
Recipes	JM-13339	Panel reports "Flash memory does not have enough space to save project data..." when recipes are defined and erased in the project - Case ID: 201801156	Bug
Recipes	JM-14275	Invalid reference when recipe widget is attached to recipe (introduced) - Case ID: 201805669	Bug
Recipes	JM-14499	Recipe values shows wrong in runtime if recipe tags are Int64 or UInt64 data types	Bug
Recipes	JM-14944	DownloadRecipe not working on variables with high offset in Retentive Memory - Case ID: 201901931	Bug
Remote Client / Activex	JM-14791	BACnet alarms and scheduler are not working in JMobile Client - Case ID: 201900498	Bug
Rotation	JM-13642	Gestures in trend widget not working fine in portrait mode	Bug
Run time operation	JM-13718	Studio cannot detect if a Tag/parameter is used more times in a formula - Case ID: 201803171	Bug
Run time operation	JM-13821	BACnetClearPriority and BACnetClearAllPriorities not working with Indexed Tags - Case ID: 201803722	Bug
Run time operation	JM-13947	Spurious tag notifications	Bug
Run time operation	JM-14219	Issue on group widget visibility	Bug
Run time operation	JM-14280	Loading parameter Tags inside custom widgets is slower than static tags - Case ID: 201805268	Bug
Run time operation	JM-14395	Runtime crash with customer's project entering a specific JM4Web page - Case ID: 201806167	Bug
Run time operation	JM-14397	NOT Formula does not work if applied to bit of Short tag - Case ID: 201805871	Bug
Run time operation	JM-14404	[MOPL] Misalignment between tags read from slave and tags read through node override id - Case ID: 201805903	Bug
Run time operation	JM-14488	JSFunctionBlock in customer project generates an error	Bug
Run time operation	JM-14513	Runtime Crashes on Selecting Recipe from web page in test project	Bug
Run time operation	JM-14529	Table widgets shows empty in runtime, if the page precache is true	Bug
Run time operation	JM-14532	Dynamic tag groups subscriptions are wrong (performance issue)	Bug
Run time operation	JM-14535	Could not install runtime on extended 2GB data partition	Bug
Run time operation	JM-14633	Table Content Fill color is wrong on Page first loading (introduced issue)	Bug
Run time operation	JM-14669	Trying to connect to OPC UA server returns errors from customer project - Case ID: 201806981	Bug
Run time operation	JM-14713	OPC-UA server interface cause a runtime crash with customer's project - Case ID: 201808031	Bug
Run time operation	JM-14751	Crash connecting to jm4web	Bug
Run time operation	JM-14781	Message Widget does not work when inserted in a Table Widget - Case ID: 201808198	Bug
Run time operation	JM-14805	JMobile Studio crashed on clicking Combo widget property when the widgets on Grid layout	Bug
Run time operation	JM-14856	CGI interface return wrong JSON to write tag command - Case ID: 201901138	Bug
Run time operation	JM-14924	Panel detect press action done in previous page after page change - Case ID: 201901771	Bug
Security	JM-13432	Security not supported by inner objects of table widget - Case ID: 201802024	Bug
Security	JM-13479	Security settings are not applied for OnDataUpdate programmed actions - Case ID: 201802250	Bug
Security	JM-13896	Wrong error message changing user password - Case ID: 201803706	Bug
Security	JM-13996	Not possible to execute action after signature dialog is closed	Bug
Special Widgets	JM-13853	OnMouseHold event not working properly if button is into a scrollable grid layout - Case ID: 201803226	Bug
Special Widgets	JM-14267	Continuous Index property of text message is not saved when inside custom widget	Bug
Special Widgets	JM-14392	Customer project crashes on eTOP510G only - Case ID: 201806159	Bug
Special Widgets	JM-14406	Formula not working if used in JM4Web custom widget with full inheritance - Case ID: 201806305	Bug
Special Widgets	JM-14481	Write on custom widget internal property not working if inheritance is enabled - Case ID: 201806797	Bug
Special Widgets	JM-14606	Empty grid layout in JM4Web returns error message - Case ID: 201807680	Bug

Category	Ticket ID	Summary	Type
Special Widgets	JM-14625	Custom widget with JSFuncBlock not working in JM4Web - Case ID: 201807777	Bug
Special Widgets	JM-14849	BACnet Scheduler widget day names are wrongly written - Case ID: 201900498	Bug
Special Widgets	JM-14869	Timedate widget on JM4Web not working with scaled data in a customer's application - Case ID: 201901280	Bug
Special Widgets	JM-14966	Error during project download. Cannot read property childNodes of null - Case ID: 201902034	Bug
Standard Widgets	JM-13407	Rotation Menu items number no more editable starting from v.2.6 - Case ID: 201801891	Bug
Standard Widgets	JM-13678	Color conversion not working in ComboBox Font Color on WCE panels - Case ID: 201803113	Bug
Standard Widgets	JM-14205	Numeric field attached to String tag has numeric number format (introduced)	Bug
Standard Widgets	JM-14334	Timedate widget on JM4Web not working with scaled data - Case ID: 201806036	Bug
Standard Widgets	JM-14522	JM4Web History Widget Refresh issue - Case ID: 201807104	Bug
Standard Widgets	JM-14523	JM4web - Active Alarms Widget Issue - Case ID: 201807111	Bug
Standard Widgets	JM-14890	Widgets on standard page not updated if tag's value is modified from dialog page - Case ID: 201901114	Bug
Standard Widgets	JM-14928	Misalignment between JM4Web project and what simulator shows - Case ID: 201901782	Bug
Tag Editor	JM-13382	Subgroup editing issues (introduced) Case ID: 201803625	Bug
Tag Editor	JM-13720	Crash when trying to attach a tag - Case ID: 201803150	Bug
Tag Editor	JM-13740	Project doesn't show any tag in project when adding a tag in any widget - Case ID: 201803236	Bug
Tag Importer	JM-14616	[LENZ] Check and replace un-supported characters in tag names during import - Case ID: 201807403	Bug
Trends	JM-13599	Different samples with same timestamp in datalogger	Bug
Trends	JM-14172	JM4Web Changing "Page Duration" of a Trend not working as expected - Case ID: 201804924	Bug
Widget: Bargraph	JM-7693	Segmented bargraph not updated when entering page if Min property differs from 0 - Case ID: 201401282	Bug
Widget: Button	JM-14251	Button's release events not performed if button is disabled/hide when in pressed state - Case ID: 201805492	Bug
Widget: Control List	JM-14585	getProperty "listData" of ControlList when used in JavaScript return partial data - Case ID: 201807521	Bug
Widget: IPCamera	JM-14495	IP Camera widget does not recover connection when using ftp for image polling - Case ID: 201806149	Bug
Widget: Media Player	JM-14061	Press and Release events of Media Player widget not managed in Linux panels - Case ID: 201804608	Bug
Widget: MultistateImage	JM-14623	Running project with multistate image shows wrong colors - Case ID: 201807722	Bug
Widget: RealTime Trend	JM-14454	Dynamic selection of tag for curve not working with RealTime Trend widget - Case ID: 201806618	Bug
Widget: RealTime Trend	JM-14636	RealTimeTrend widget no more working after project conversion - Case ID: 201807922	Bug
Widget: Table	JM-14593	Bug in table filter if applied on active alarm data source widget	Bug
Widget: Text	JM-13892	Scroll property of label widget not working in JM4Web - Case ID: 201803965	Bug

Build number 2.8.0.435

Changes since build 2.8.0.363

Category	Ticket ID	Summary	Type
Security	14832	Cyber Security Enhancements	Feature
Protocol	10440	[S7ET][MPOB][S7DP] One-step symbol acquisition from TIA Portal	Feature
Protocol	12937	[MPOB] Porting MPI to Linux UN6x TI platforms (UN60, UN70)	Feature
Protocol	13921	[NM20] NM2K as JMobile protocol	Feature
Protocol	14490	[DELTA] Delta Electronics Modbus RTU Protocol	Feature

JMobile V2.8 Release Notes

©2018 EXOR International S.p.A. - Subject to change without notice

Category	Ticket ID	Summary	Type
Protocol	14224	Rename EIAM protocol to Control Techniques	Feature

Build number 2.8.0.363

Changes since build 2.8.0.305

Category	Ticket ID	Summary	Type
CODESYS 3	14253	Unable to activate iPLC3 if panel is connected to the network with Ethernet interface different than eth0 - Case ID: 201805496	Bug
CODESYS 3	14269	Target ID not read correctly - Case ID: 201805664	Bug
CODESYS 3	14257	CODESYS 3 license does not activate properly on eSMART - Case ID: 201805449	Bug
Run time operation	14460	Problems with Tag Editor scaled tags in 2.8 - Case ID: 201806685	Bug
Run time operation	14293	Tags with square brackets in name are not replaced if renamed and are recognized as invalid from Cross reference - Case ID: 201805655	Bug
Run time operation	14212	JMobile crash when change some link in page 1 with customer's project - Case ID: 201805245	Bug
Run time operation	13638	Manage Time Spec setting in DatetimePrefix of dump file name - Case ID: 201802866	Bug
Documentation	14464	Specify missing support for PLC Alarms in JM4Web - Case ID: 201806192	Bug
Documentation	14276	Formula help chapter examples are wrong - Case ID: 201805740	Bug
JM4Web	14405	Tag used as array index of array tag, used at project level cause error in JM4Web - Case ID: 201806305	Bug
JM4Web	14308	General JavaScript error while opening web pages from customer project - Case ID: 201805894	Bug
JM4Web	13606	ScrollTrendToTime action not working on JM4Web - Case ID: 201802760	Bug
JM4Web	14227	JavaScript returns error in JM4Web on load page or close dialog action - Case ID: 201805307	Bug
Recipes	14332	Restore single recipe set reports set number error - Case ID: 201805927	Bug
Security	14309	Signature Dialog not enabled for all brands	Bug
Security	14327	Audit Trail does not log failed login attempts	Bug
Special Widgets	14382	Custom widget does not handle properly image on Z order with visibility check - Case ID: 201805540	Bug
Special Widgets	13507	Studio modifies tag's name after conversion of a custom widget to a group widget - Case ID: 201802317	Bug
Special Widgets	14204	IP camera widget: mjpeg stream makes network busy - Case ID: 201805208	Bug

Build number 2.8.0.305

Changes since build 2.6.1.67

Category	Ticket ID	Summary	Type
Actions and Events	11097	Extend gesture area widget with possibility to execute one shot actions on new events	Feature
Actions and Events	11855	Enable ftp client actions in Scheduler and Alarms - Case ID: 201706855	Feature
Actions and Events	13220	Extend gesture area: Passthrough	Feature
Alarms	12065	Background color for alarm widgets	Feature
Alarms	13012	Table Alarm widget optimization	Feature
Audit trail	1995	Create AuditTrail display widget - Case ID: 201202158	Feature
Audit trail	12334	Events to log inside the Audit Trail	Feature
Audit trail	12354	New format of events buffer dump (SaveArchive)	Feature
Audit trail	12395	Action to log a message into the Audit Trail	Feature
Audit trail	12408	Ensure the authenticity of reports generate from HMI	Feature
Audit trail	13009	Audit Trail with date and time on separate columns	Feature
Branding	11803	Create different versions of Active Alarms (Lite, Ack, Full)	Feature
Branding	13253	Limits extension in v2.8 in all iMX platforms + PC Win/Linux	Feature

JMobile V2.8 Release Notes

©2018 EXOR International S.p.A. - Subject to change without notice

Category	Ticket ID	Summary	Type
Branding	13315	Support for JSmart705, JSmart707, JSmart710, JSmart715, JSmart721	Feature
Branding	13418	New models eX707FB, eX715FB, eXware707, eXware707Q	Feature
Branding	13586	Help -> Online Documents and Download	Feature
Branding	13680	Update images of JMobile Suite	Feature
Branding	14167	Add eX707G + eX710G models (High Brightness display)	Feature
CODESYS 3	12435	CODESYS fastboot	Feature
CODESYS 3	13003	Log the license status of all CODESYS modules	Feature
Run time operation	4968	Provide backspace functionality for numeric keypad - Case ID: 201204551	Feature
Run time operation	8864	Enable Check box button in Scheduler and Alarm widget is too small	Feature
Run time operation	11100	Improve Studio boot time	Feature
Run time operation	11294	OPC UA Server: Server expose tags grouped with name (prot1, prot2)	Feature
Run time operation	12875	Global property to disable multitouch gestures in a project - Case ID: 201706584	Feature
Run time operation	13033	OPC UA Server: Increase maximum size for strings	Feature
Run time operation	13556	Provide the "attach to tag" to buzzer properties inside project widget	Feature
Run time operation	13562	Fit to screen size	Feature
Dialogs	13757	Add Keyboard functionalities also in Dialog pages - Case ID: 201803137	Feature
Documentation	12346	OpenVPN client support (integrated into the BSP Linux) - Case ID: 201702945	Feature
Documentation	12995	Review of Sampling Filter explanation in user manual - Case ID: 201707432	Feature
Documentation	13185	Document PLCM09 in JMobile Help	Feature
JavaScript	6583	Change current user via JavaScript – Case ID: 201302971	Feature
JavaScript	12149	Extend JS file read API to be able to know file encoding - Case ID: 201701860	Feature
JavaScript	12805	Add JavaScript debugger support for custom widget modules	Feature
JavaScript	12999	Long JavaScript class to support int64 and uint64 into Qt JavaScript engine	Feature
JavaScript	13726	Define a new most important bit position (big endian) formula: \$MsbPos(arg)	Feature
JavaScript	13749	Add project.log(message) API, to write into runtime console log	Feature
JM4Web	6890	JM4Web: Support for User Management	Feature
JM4Web	12074	JM4Web: Trends rendering optimization on mouse drag/touch move	Feature
JM4Web	12085	JM4Web: Develop attach to alias - Case ID: 201701405	Feature
JM4Web	12086	JM4Web: Develop OnHold event on buttons - Case ID: 201701405	Feature
JM4Web	12209	Reduce the loading time of a web project	Feature
JM4Web	12243	JM4Web: Add the system variable "Remote Client variables->Connection status"	Feature
JM4Web	12280	JM4Web: Add User Management system variable	Feature
JM4Web	12288	JM4Web: Canvas widget	Feature
JM4Web	12289	JM4Web: JSFuncBlock widget	Feature
JM4Web	12290	JM4Web: Align custom widget	Feature
JM4Web	12291	JM4Web: Align grid layout	Feature
JM4Web	12294	JM4Web: Add the trend action "RestoreTrendDefault"	Feature
JM4Web	12332	JM4Web: Add the JavaScript functions on/off to manage change page and resize	Feature
JM4Web	12439	JM4Web: Blue system icon delay as project property	Feature
JM4Web	12548	JM4Web: Trend Cursor value for Scatter Diagram - Case ID: 201701794	Feature
JM4Web	12577	JM4Web: Possibility to change alarms font - Case ID: 201701794	Feature
JM4Web	12635	JM4Web: Add SetTrendView(Xmin, Xmax, Ymin, Ymax)	Feature
JM4Web	12667	JM4Web: Password aging / expire functionality	Feature
JM4Web	12685	JM4Web: Specifying visualization format by wildcards for field	Feature
JM4Web	12687	JM4Web: Formula Xform on tag attachment	Feature
JM4Web	12991	JM4Web: Possibility to define range of values in ColorPalette	Feature
JM4Web	13001	JM4Web: Add the possibility to enable a loading animation that appears at page change	Feature
Multilanguage	12625	Multilanguage management of error messages in login form	Feature
Print	7657	Print reports to PDF with filename defined at runtime - Case ID: 201401140	Feature

Category	Ticket ID	Summary	Type
Print	12770	Increase PDF quality of Graphic Report in Linux panels - Case ID: 201704994	Feature
Productivity tools and IDE UI	5333	Possibility to duplicate pages - Case ID: 201703731	Feature
Productivity tools and IDE UI	7899	Possibility to cleanup Unused Tags - Case ID: 201501169	Feature
Productivity tools and IDE UI	9615	Improved Studio IDE when Monitor DPI is higher than 100%	Feature
Productivity tools and IDE UI	10429	GUI improvement for Deviation Alarms - Case ID: 201601226	Feature
Productivity tools and IDE UI	10787	Show a Lock icon few seconds when a user try to change a read only widget	Feature
Productivity tools and IDE UI	11026	Possibility to define range of values in ColorPalette - Case ID: 201604378	Feature
Productivity tools and IDE UI	11704	Extend Dump DataLog/Trend to let users choose columns to dump	Feature
Productivity tools and IDE UI	12207	Project properties reorganization	Feature
Productivity tools and IDE UI	12250	Aligned Context Menu project property description	Feature
Productivity tools and IDE UI	12286	Add cross reference for all type of data sources (via System variable, Recipes, Alias)	Feature
Productivity tools and IDE UI	12606	Save HMI IP address as part of project files	Feature
Productivity tools and IDE UI	12633	Added version numbers into JMobile shortcuts - Case ID: 201705105	Feature
Productivity tools and IDE UI	12746	Improve folder organization of temporary files in subfolder or temp folder - Case ID: 201705775	Feature
Productivity tools and IDE UI	13266	Possibility to define range of values in ColorPalette - Tooltip	Feature
Productivity tools and IDE UI	13279	Add a default color for color palette when the tag value is none of the defined index	Feature
Productivity tools and IDE UI	13375	Review the new "source timestamp" feature of trend buffer	Feature
Productivity tools and IDE UI	13539	Simple Generic Table widget	Feature
Productivity tools and IDE UI	13544	Alarm editor -> Event types dialog -> Notify, Log, Actions ,Print Sections heading to be changed	Feature
Protocol	14029	Enable KNX IP protocol on eSMART serie - Case ID: 201804485	Feature
Recipes	6954	Allow Unicode import into recipes as per Multilanguage - Case ID: 201304281	Feature
Recipes	12484	Add Set status to recipes to identify if values have been modified - Case ID: 201701794	Feature
Remote Client	6175	HMI Client for panels (Linux HMIs only) - Case ID: 201300353	Feature
Security	5246	Password aging / expire functionality - Case ID: 201203493 - 201205843	Feature
Security	7720	FDA CFR 21 Part 11 support	Feature
Security	10938	Added Electronic Signatures	Feature
Security	12312	Added common User settings	Feature
Security	12358	Add specific user permissions for Web access and Windows Client access - Case ID: 201703029	Feature
Security	12774	Update UM pages to support Multilanguage error messages	Feature
Security	12983	CFR21Part11 support on PC Runtime	Feature
Security	13166	Provide a Read Only variable with list of available user names - Case ID: 201708281	Feature
Security	13774	Review of OPC UA Server Client and Importer	Feature
Special Widgets	12623	Formula Xform	Feature
Special Widgets	12744	Allow attach to tag for custom widget parameters - Case ID: 201703731	Feature
Special Widgets	12782	Table widget support for Alarm History	Feature
Special Widgets	13084	Enabling Full inheritance for custom widgets (always visible as default as option)	Feature
Special Widgets	13489	Convert pages from web to native and back	Feature

Category	Ticket ID	Summary	Type
Special Widgets	13791	NCol/NRow of grid layout and table widget managed as special Studio commands	Feature
System Variables	11536	New JSmart system variables	Feature
System Variables	12249	Add the system variable "Remote Client variables->Connection status"	Feature
System Variables	12618	Expose I/O and Leds of PLCM09 via Direct I/O in JMobile to allow users to control it	Feature
System Variables	13744	Expose VNC server start/stop/state in system variables / services	Feature
Tag Editor	7481	Tags find and replace	Feature
Tag Editor	12815	Tags find and rename	Feature
Trends	9040	Extend trends to save a copy when full in csv format - Case ID: 201703613	Feature
Trends	12241	Request to have "Dynamic" path for "DumpTrend" action - Case ID: 201702307	Feature
Trends	12293	Add the trend action: RestoreTrendDefault	Feature
Trends	12954	Select trend to display in history trend widget - Case ID: 201703731	Feature
Trends	13628	Support for Fixed Header in Tables	Feature
Widget: Field	3658	Specifying visualization format by wildcards for fields - Case ID: 201102444	Feature
Widget: Scatter Diagram	12485	Trend Cursor value for Scatter Diagram - Case ID: 201701794	Feature
Widget: Table	12076	Add copy and paste functionality to Table Data Source widget - Case ID: 201701465	Feature
Widget: Table	12781	Table widget support for Trends - Case ID: 201703731	Feature
Widget: Table	12887	Dynamic properties not showed in exposed custom widget properties	Feature
Widget: Table	13047	Table widget filter (with formula support) for tests	Feature
Widget: Table	13257	Font changing not supported in table widget (standard data source)	Feature
Widget: Table	13412	Table widget / Formula improvements	Feature
Widget: Table	13424	JavaScript API getCurrentTopRow() for Table widget	Feature
Widget: Table	13477	Get/Set table model from JavaScript even with not null filter is set	Feature
Widget: Table	13478	ViewModel OnDataUpdate() added to Table widget	Feature
Widget: Table	13492	getRowCount() js table API added	Feature
Widget: Table	13568	Trend data source widget optimizations	Feature
Widget: Table	13773	Improved management of combo-box properties as tree items	Feature
Widget: Table	13816	New grid layout selector functionalities to add and remove columns and rows	Feature
Widget: Table	13833	Standard table data source widget: fixed header support	Feature
Widget: Table	13922	Add Table widgets to gallery	Feature
Widget: Video	10203	Video player support for Linux platforms	Feature
Widget: WebBrowser	12838	HTTPs support for browser widget	Feature
Actions and Events	13799	Studio crash while copying a custom widget to specific user gallery page - Case ID: 201803792	Bug
Alarms	12474	Alarm history widget does not show correct groups - Case ID: 201703858	Bug
Alarms	12848	Ack notify not working anymore after modify of Alarms configuration and project download - Case ID: 201706227	Bug
Alarms	13142	Wrong ack notify tag on alarm setting after delete alarms.bin file - Case ID: 201708290	Bug
CODESYS 3	13380	[iPLC3] Load CmpEL6751CanDrv component at runtime startup - Case ID: 201800457	Bug
CODESYS 3	14121	[iPLC3] HMI reboot when CODESYS project stays in stop for some time - Case ID: 201804523	Bug
Data entry	10257	Decimal values are not written if Index tag is a float - Case ID: 201600571	Bug
Data transfer	12510	Manage DataTransfer between tags having different data types - Case ID: 201703549	Bug
Data transfer	12958	Tag read when set as destination tag of Data Transfer executed on trigger - Case ID: 201707199	Bug
Run time operation	10340	Runtime crash on JavaScript remote debugger use - Case ID: 201600610	Bug
Run time operation	11583	Project not loading fine with LoadProject macro if we give only projectname.jpr - Case ID: 201702348	Bug
Run time operation	11688	Button widget does not respect Tag value on specific page - Case ID: 201606902	Bug

Category	Ticket ID	Summary	Type
Run time operation	11838	Retentive memory behavior differs between Ethernet download and use of update package - Case ID: 201700338	Bug
Run time operation	12254	Live Tags in alarm description are required also if alarm is not enabled - Case ID: 201702305	Bug
Run time operation	12327	Initial sample of consumption meter behavior - Case ID: 201702268	Bug
Run time operation	12356	Fixed gesture area widget behavior for some events - Case ID: 201703004	Bug
Run time operation	12462	OPC UA Server: initial tag update not working - Case ID: 201703703	Bug
Run time operation	12563	Runtime crash on specific FTP configuration - Case ID: 201704434	Bug
Run time operation	12565	FTP Get do not return error if cable is disconnected while transferring data - Case ID: 201703805	Bug
Run time operation	12592	JMobile FTP server converting to lowercase path of files not allows to copy files into path with uppercase Case ID: 201704684	Bug
Run time operation	12874	Parameter does not maintain name if it starts with number - Case ID: 201706517	Bug
Run time operation	12901	Tag visualization lag using customer project - Case ID: 201703637	Bug
Run time operation	12950	Fixed Runtime behavior with customized ChangePassword page - Case ID: 201707206	Bug
Run time operation	12994	Tags not read anymore when accessing the second time to a page with dynamic datalink - Case ID: 201703731	Bug
Run time operation	13111	Runtime crash when executing change page form keyboard after selecting raw in table widget - Case ID: 201708286	Bug
Run time operation	13129	Panel continuous reboots after Runtime being downloaded from specific PC - Case ID: 201708376	Bug
Run time operation	13242	Runtime crash on customer's panel - Case ID: 201800013	Bug
Run time operation	13293	Custom widget not imported correctly during import page - Case ID: 201801254	Bug
Run time operation	13427	Live Tags in alarm description is updated once when is triggered and not more - Case ID: 201802009	Bug
Run time operation	13682	Download Runtime becomes slow when user home is mapped on a network path - Case ID: 201802990	Bug
Run time operation	13685	Panel CPU stuck at 100% when a dialog page is opened causing very slow reaction of the system - Case ID: 201802974	Bug
Run time operation	13719	Disable Tag selection when a formula is defined to return output value on a widget - Case ID: 201803171	Bug
Run time operation	13831	Some buttons defined in template page not working in customer project - Case ID: 201803724	Bug
Run time operation	13848	Touch events not working on system windows opened from JMobile Runtime PC running on Windows 10 - Case ID: 201803107	Bug
Run time operation	13936	Images missing after some days of project downloaded - Case ID: 201804081	Bug
Run time operation	13954	Customer project show missing images and then reboots after VNC connection - Case ID: 201803647	Bug
Run time operation	14158	Momentary button status not reflecting user input when attached to BuzzerControl R/W - Case ID: 201804960	Bug
Dialogs	13393	On Panel Pc numeric keyboard on a dialog page write numbers twice - Case ID: 201801560	Bug
Documentation	12934	Add note into the help regarding compatibility of trendbufferreader utility - Case ID: 201707014	Bug
Fonts	13798	Error "missing font" when trying to save project - Case ID: 201803552	Bug
Gallery	6380	Fixed widget gallery behavior if using two monitors with specific settings - Case ID: 201301928	Bug
JavaScript	13711	Searching text in JavaScript, delete last text modify - Case ID: 201803183	Bug
JavaScript	13785	Support also UTF-8 in JavaScript instruction "fs.readFile" - Case ID: 201803473	Bug
JM4Web	10757	JM4Web: Project shown different in Simulator, Chrome, Mozilla and IE - Case ID: 201602965	Bug
JM4Web	11489	JM4Web: Opacity of a simple rectangle (or other shape) cannot be attached to a tag - Case ID: 201606120	Bug
JM4Web	11958	JM4Web: Visualization problems with specific svg and widgets - Case ID: 201700910	Bug

Category	Ticket ID	Summary	Type
JM4Web	12025	JM4Web: ComboBox widget with big text not displayed properly - Case ID: 201701170	Bug
JM4Web	12078	JM4Web: IP Camera widget not working in version 2.6 - Case ID: 201701293	Bug
JM4Web	12208	JM4Web: Fixed Scatter diagram issues - Case ID: 201702118	Bug
JM4Web	12256	JM4Web: Alarm background issue in web page after particular sequence of enable/disable alarms - Case ID: 201702449	Bug
JM4Web	12355	JM4Web: Visible attribute becomes NaN after direct setting to false - Case ID: 201703024	Bug
JM4Web	12455	JM4Web: Wrong behavior of bargraph widget when Browser Optimization property is set to True - Case ID: 201703710	Bug
JM4Web	12469	JM4Web: Combo box list displayed only down - Case ID: 201703789	Bug
JM4Web	12552	JM4Web: Login form appears also even though is disabled in "Authorization Settings"->"IP List" - Case ID: 201704109	Bug
JM4Web	12578	JM4Web: Font not correctly loaded until set language in customer project - Case ID: 201701794	Bug
JM4Web	12974	JM4Web: Scaling on History Trend not applied - Case ID: 201707314	Bug
JM4Web	13195	JM4Web: Scale widget doesn't shows background color - Case ID: 201800252	Bug
JM4Web	13197	JM4Web: Trend widget doesn't align labels correctly and stop showing cursor - Case ID: 201800252	Bug
JM4Web	13325	JM4Web: Opacity property not exposed if used with JavaScript - Case ID: 201801483	Bug
JM4Web	13360	JM4Web: Function getTag returns full array if array tag is attached to a widget - Case ID: 201801668	Bug
JM4Web	13526	JM4Web: Cached template fields doesn't work when entering in page twice - Case ID: 201802394	Bug
JM4Web	13570	Delegate to browser on device system the choice of font if is missing or not exportable - Case ID: 201801760	Bug
JM4Web	13602	JM4Web: NaN visible when viewing a scaled value - Case ID: 201802802	Bug
JM4Web	13606	JM4Web: ScrollTrendToTime action not working - Case ID: 201802760	Bug
JM4Web	13708	JM4Web: Color palette not working on bargraph - Case ID: 201803194	Bug
JM4Web	14204	IP camera widget: mjpeg stream makes network busy - Case ID: 201805208	Bug
JM4web: Core	12602	Visibility of line widget doesn't work if attached to a tag - Case ID: 201706386	Bug
JM4web: Core	13429	The cgi readTrend.json generates not valid json when trend sample value is nan/-nan - Case ID: 201801275	Bug
Multilanguage	12564	Texts duplicated in Multilanguage for widgets of Graphic Report pages - Case ID: 201704440	Bug
Offline nodes management	13181	EnableNode action really cannot disable some driver - Case ID: 201800123	Bug
PDF Reader	13275	Improve gestures on PDF viewer - Case ID: 201708175	Bug
Print	13259	Missing columns in Alarms Report widget - Case ID: 201800996	Bug
Productivity tools and IDE UI	10085	Dialog pages are not shown on the same monitor of the Studio when Studio is running on the secondary monitor - Case ID: 201507698	Bug
Productivity tools and IDE UI	11139	Alarm Background/Foreground color not applied if edited from RGB field - Case ID: 201604671	Bug
Productivity tools and IDE UI	11894	FTP Status system variable detected as invalid tag by tag cross reference window if used in Data Transfer - Case ID: 201700439	Bug
Productivity tools and IDE UI	12279	Cross reference missing and wrong information - Case ID: 201702571	Bug
Productivity tools and IDE UI	12302	Alarm's description deleted after project conversion to 2.6 - Case ID: 201702683	Bug
Productivity tools and IDE UI	12430	Studio creates an empty folder "props" in Root Directory - Case ID: 201705272	Bug
Productivity tools and IDE UI	12449	Remove Font fail if project contain a needle widget - Case ID: 201703600	Bug
Productivity tools and IDE UI	12471	Missing widgets after project conversion - Case ID: 201703520	Bug
Productivity tools and IDE UI	12919	It is not possible to choose different file name (dynamic use) in GCode Editor widget by project - Case ID: 201707033	Bug

Category	Ticket ID	Summary	Type
Productivity tools and IDE UI	13109	Fixed file browser size for smaller HMIs - Case ID: 201801127	Bug
Productivity tools and IDE UI	13177	ComboBox linked on arrayTag with dynamic Array index write wrongly data when entry in page - Case ID: 201800144	Bug
Productivity tools and IDE UI	13267	Page's name in LoadPage action configured into Keyboard buttons not updated on page's name change - Case ID: 2018001042	Bug
Productivity tools and IDE UI	13318	Table widget lock update data refresh after logout - Case ID: 201800729	Bug
Productivity tools and IDE UI	13434	Add support for reserved chars into recipe elements name - Case ID: 201802053	Bug
Productivity tools and IDE UI	13553	Error message during project optimization if project contains a JSFunctBlock in Project properties and at least one JM4Web page - Case ID: 201801760	Bug
Productivity tools and IDE UI	13591	Tag Cross Reference show system variables as invalid - Case ID: 201802780	Bug
Protocol	8014	[MODT] [MRTU] Data entry validation for Max Read Block value into Modbus TCP protocol configuration - Case ID: 201403229	Bug
Protocol	10556	[OPCU] Tag import not working with Matrikon OPC UA Gateway using security - Case ID: 201601811	Bug
Protocol	11293	[OPCU] OPC-UA Client and Server IP and port misalignment - Case ID: 201701339	Bug
Protocol	12277	[ETIP] Communication error reading string data in version 160 of the protocol - Case ID: 201702568	Bug
Protocol	12642	[OPCU] Array of double not correctly imported - Case ID: 201705177	Bug
Protocol	12801	[S7ET] Wrong offset applied to tag if DB contains DATE data type - Case ID: 201706331	Bug
Protocol	12965	[J193] DataTransfer from retentive system variable to J1939 variable not executed on startup - Case ID: 201706498	Bug
Protocol	12967	[MODT] Communication issues with customer project - Case ID: 201702604	Bug
Protocol	13013	[ETIP] Tag importer does not create sing array element tag for boolean array - Case ID: 201707594	Bug
Protocol	13080	[ETIP] Customer application shows misaligned data in a specific project page - Case ID: 201707980	Bug
Protocol	13086	[GE90] M variable not written with download recipe - Case ID: 201708160	Bug
Protocol	13087	[S7ET] Studio crashes when importing invalid file symbol file name given - Case ID: 201708164	Bug
Protocol	13116	[CDS3] Error Data type mismatch when importing an Enum Type - Case ID: 201708356	Bug
Protocol	13118	[CDS3] Slowness of first access to CODESYS variables - Case ID: 201708417	Bug
Protocol	13145	[S7ET] It is not possible to configure a PLC Network with two device with the same IP address but with different Slot Number - Case ID: 201800030	Bug
Protocol	13146	[J193] OUTPUT PGNs not working in REPLY type - Case ID: 201706498	Bug
Protocol	13168	[MIQE] Importer from GX Works csv file import only separated elements of array tags - Case ID: 201800116	Bug
Protocol	13192	[OPCU] Tags browse becomes progressively slow when there is a big amount of tags to be imported - Case ID: 201800021	Bug
Protocol	13206	[MODT] [MRTU] Add Max Read Block size override to 250 bytes in protocol if studio settings are out of limits - Case ID 201800422	Bug
Protocol	13297	[S7ET] System data type IEC_TIMER not properly imported - Case ID: 201801220	Bug
Protocol	13350	[ROBX] Wrong read of Not Volatile I32 resource - Case ID: 201801630	Bug
Protocol	13354	[CDS3] Importer imports enumerator with wrong data type - Case ID: 201801612	Bug
Protocol	13445	[S7ET] System data types IEC_XXX not imported if used in UDT - Case ID: 201802108	Bug
Protocol	13476	[BEAD] TOD and DT data types not imported from Twincat 3 .tpy file - Case ID: 201802242	Bug
Protocol	13564	[MODT] when receiving exception 11 the protocol should generate TIMEOUT_ERROR - Case ID: 201801581	Bug

Category	Ticket ID	Summary	Type
Protocol	13659	[iPLC3] [CDS3] Enabling or Disabling PLCM09 network, CODESYS v3 get communication error - Case ID: 201802953	Bug
Protocol	13665	[BEAD] Communication problem if array tag is used instead of single array element - Case ID: 201802982	Bug
Protocol	13724	[S7ET] Array of bool imported with wrong offset from STEP7 - Case ID: 201803169	Bug
Protocol	13795	[J193] PNG defined as output can be readable causing communication error - Case ID: 201803455	Bug
Protocol	14076	[MODT] Importer from CODESYS SYM file creates wrong addresses for String type data - Case ID: 201804621	Bug
Protocol	14090	[ETIP] Write operation on Byte data type returns NAK error with Omron controller - Case ID: 201804741	Bug
Protocol	14185	[MIFE] Write tag on Data register write unpredictable value - Case ID: 201804972	Bug
Protocol	14185	[MIFE] Write tag on Data register write unpredictable value - Case ID: 201804972	Bug
Recipes	13090	Fixed Runtime behavior when a wrong csv file is selected for Restore recipe - Case ID: 201708250	Bug
Recipes	13128	Import Recipe csv edited with Excel not executed correctly - Case ID: 201707347	Bug
Recipes	13725	Cannot use recipe set element in formula - Case ID: 201803145	Bug
Security	12575	ChangePassword User Management page error message not cleared after wrong inserted password - Case ID: 201701794	Bug
Security	13822	Custom widget doesn't accept changes on security settings - Case ID: 201803625	Bug
Special Widgets	7644	Fixed read/write behavior on custom widget - Case ID: 201401110	Bug
Special Widgets	11245	Runtime crash if set -1 to the tag attached to "Default Layer" of MultiState Image MultiLayer - Case ID: 201605016	Bug
Special Widgets	12340	BACnet Keypads displayed without text - Case ID: 201702928	Bug
Special Widgets	13015	Video redirect of DVI video input interrupted for a moment when entering into a page containing DVI Input widget - case ID: 201707614	Bug
Special Widgets	13222	Custom widget loses all configured properties during project conversion if custom widget name contains dot - Case ID: 201800499	Bug
Special Widgets	13310	Can't use param as array's index in custom widget - Case ID: 201801309	Bug
Special Widgets	13823	Modifying version on custom widget will delate all them on closed unsaved page - Case ID: 201803625	Bug
